Metal Lux è un'azienda situata nel cuore del Distretto veneto dell'illuminazione che con orgoglio è giunta al traguardo dei 50 anni di storia. Da sempre presente nei maggiori mercati internazionali grazie a una forte rete commerciale ed espositore fin dagli anni '70 nelle più qualificate fiere del settore, ha saputo innovare e rinnovarsi dando vita a prodotti di alta qualità e design con l'apporto di una nutrita schiera di maestranze altamente specializzate nelle diverse operazioni di artigianato. Le modificate condizioni di mercato hanno spinto Metal Lux a dar vita a un nuovo indirizzo produttivo orientato alla realizzazione di articoli su misura destinati al settore dell'ospitalità e all'abitativo di alto livello. Nuovi articoli su richiesta del committente vengono progettati e realizzati impiegando i più avanzati sistemi di progettazione e attrezzature di ultima generazione. La grande esperienza maturata in questi anni di operatività e presenza nei mercati consente a Metal Lux di proporre soluzioni illuminotecniche caratterizzate da un forte contenuto tecnologico a prezzi competitivi e in tempi estremamente ridotti. Situata in un ambiente naturale di alto pregio caratterizzato dalla presenza del Parco Regionale del Fiume Sile e da colture ortofrutticole DOP, Metal Lux nel 2012 si è dotata di un impianto fotovoltaico di 366 kW che garantisce la quasi totale autonomia del fabbisogno energetico. L'impianto fotovoltaico posizionato sul tetto della propria struttura produttiva è composto da 1.600 pannelli fotovoltaici e garantisce la mancata emissione di 220 tonnellate annue di CO2.

*Metal Lux is located in the heart of the Veneto lighting industry district and the company has proudly reached its 50-year business milestone. Metal Lux has always been present in major international markets thanks to its strong sales network and started exhibiting in the most prestigious trade fairs in the 1970s. The company has successfully innovated and renewed, creating top-quality design products with the help of a large group of co-workers who are highly specialized in different artisan skills. Shifting market conditions persuaded Metal Lux to create a new production line of bespoke items for the hospitality and high-end residential sectors. Customers request new items, which are designed and manufactured using state-of-the-art design systems and cutting-edge metalworking equipment. The vast experience acquired over its years in business and its market presence mean that Metal Lux can offer lighting solutions characterized by a high technological content at competitive prices and with a fast turnaround time. The headquarters are set in a lovely natural environment, near the "Parco Regionale del Fiume Sile" with DOP fruit and vegetable plantations. In 2012 Metal Lux installed a 366 kW photovoltaic system that covers almost all the energy requirements. The system is fitted to the production plant roof and comprises 1.600 solar panels that ensures non-emission of 220 tons of CO2.*

Estro vuole essere curioso, creativo e aperto, per poter entrare in un dialogo con l'architettura degli interni, sia privata che pubblica, ma soprattutto quella della moderna urbanitas, intrisa di arte e di design. Sono aspetti culturali in continua evoluzione che hanno un ruolo molto importante a cui la collezione Estro dà un notevole contributo per "segno formale" e raffinatezza tecnica.

*A curious, creative, open dialogue where architectural structure meets interior design taste. Light output from a geometrical structure adds to the space impressive notes of a formal sign and technical refinement. Art and modern design are displaying a new language.*

La semplicità, la chiarezza di un segno perfetto, il cerchio, che diventa luce. La sfera, di cristallo o colorata, che diventa atmosfera e svela il fascino della luce immersa in un vortice di curve e linee di metallo luccicante. Una danza di corpi liberi, splendenti che attraversano lo spazio illuminandolo di infinite vibrazioni.

*The simplicity, the clarity of a perfect score, the circle, becoming light. The globe, crystal or coloured, becomes atmosphere and reveals the charm of light emerging in a whirlwind of curves and gleaming metal lines. A dance of loose bodies, enlightening the atmosphere with endless vibrations.*

La forma perfetta della sfera che ritorna e impone una logica ferrea e convincente, chiaramente avvertibile in tutte le funzioni in cui è inserita. Armonizzata e domata dalle linee ardite di una struttura metallica, la sfera si impone come diffusore ideale di orizzonti luminosi senza limite. Con accorti interventi strutturali Global può raggiungere possenti dimensioni per mega spazi di aree comuni, dove emerge con la travolgente eleganza di un contrappunto di luce viva e trame metalliche.

*A glorious comeback of the sphere: the shape of perfection, imposing a strong and convincing logic wherever it is installed. The strong lines of metal structure conveys a sense of contemporary elegance. With skilled structural interventions Global is able to reach dramatic dimensions to cover large spaces of common areas for hospitality business.*

Una composizione che disegna nello spazio eleganti tracce luminose. Le linee severe della montatura sono aggraziate alla melodia avvolgente emanata dai diffusori in vetro soffiato. Le forme bizzarre di sospensioni e delle plafoniere imprimono all'ambiente una nota disincantata di leggerezza.

*A fairy composition that marks the space with elegant trails of lights. The affirmative lines of metal structure are gracefully embedded in a warm and cultivated atmosphere suggested by blown glass diffusers. From the bizarre shapes of ceiling and hanging sets emerge notes of lightness.*

Orbita si impone in modo "cosmico" per le linee pulite ed essenziali e per il poderoso vigore monumentale che riesce a imporre nello spazio nel quale si libra e nel quale si mantiene in perfetto ed "eterno" equilibrio, ovvero, quella che nelle arti figurative è sempre stata denominata "forza plastica": essenza di spettacolare bellezza qui applicata alla moderna illuminazione d'interni.

*Spectacular beauty emerging from a cosmic, silent space. Pure lines designed by a vivid sign of eternal value. A perfect balance of material, function and concept are blended in a never ending musical rythm.*

Da forme un po' retrò, semplici ma funzionali proprio per la loro semplicità, nasce una collezione che riporta in voga lo stile degli anni settanta/ottanta di concezione modulare, riproposta qui con rinnovata interazione fra luce e spazio per suggerire soluzioni dal sapore vintage ma assolutamente affascinanti.

Estro vuole essere curioso, creativo e aperto, per poter entrare in un dialogo con l'architettura degli interni, sia privata che pubblica, ma soprattutto quella della moderna urbanitas, intrisa di arte e di design. Sono aspetti culturali in continua evoluzione e che hanno un ruolo molto importante a cui la collezione Estro dà un notevole contributo per "segno formale" e raffinatezza tecnica.

Il concetto della trasparenza, dell'eleganza applicato a una forma sinuosa intimamente connessa alle volute eleganti del lampadario Veneziano. L'interpretazione innovativa riflette e condensa le elaborazioni secolari dello stile veneziano e trova una sintesi con il linguaggio e le sonorità di una trama metallica di assoluta perfezione.

*An up to date, metallic translation of the elegant line of a traditional Murano-style chandelier in modern terms and brilliant accents. A fine almost imperceptible mesh of glittering wires, transmits an incandescent glow of light with reflected brilliance.*

Estro vuole essere curioso, creativo e aperto, per poter entrare in un dialogo con l'architettura degli interni, sia privata che pubblica, ma soprattutto quella della moderna urbanitas, intrisa di arte e di design. Sono aspetti culturali in continua evoluzione che hanno un ruolo molto importante a cui la collezione Estro dà un notevole contributo per "segno formale" e raffinatezza tecnica.

La forma perfetta della sfera che ritorna e impone una logica ferrea e convincente, chiaramente avvertibile in tutte le funzioni in cui è inserita. Armonizzata e domata dalle linee ardite di una struttura metallica, la sfera si impone come diffusore ideale di orizzonti luminosi senza limite. Con accorti interventi strutturali Global può raggiungere possenti dimensioni per mega spazi di aree comuni, dove emerge con la travolgente eleganza di un contrappunto di luce viva e trame metalliche.
